# Safety Solutions for Airports

Safety on the ground and in the air is paramount in the aviation industry. Airport operators have to make sure that their locations conform to the highest safety standards. This applies in a number of different areas: to passengers, the security of facilities and flight safety in equal measures.

Kee Safety, a leading global supplier of fall protection solutions, safety railing systems, and safe access equipment for working at height, has been providing airports with affordable, safe and reliable solutions for over 80 years.

Our systems have been installed at Singapore Changi, Hong Kong, Cambodia, Heathrow, Gatwick, Al Maktoum, Madrid Barajas, Charles de Gaulle, Rotterdam, Pittsburgh, Frankfurt, Seattle and Vilnius airports to name just a few.

Kee Safety Singapore Pte. Ltd. can offer a full design and installation service, undertake surveys and produce CAD drawings for each project, giving customers the most cost effective solution to their needs; ensuring that all applications conform to the relevant standards.
